EMPOWERING ABILITIES THROUGH EMPLOYMENT

Why Employment Services Matter?

- Over 70% of adults with disabilities are unemployed or underemployed.
- Individuals with disabilities increase their independence through employment.
- Employment creates a sense of pride in individuals.
- For many individuals, behavior issues are minimized when they are provided the opportunity to work.

What We Do:

Review practices and procedures of referral Sources

Evaluate effectiveness and issues

Collaborate with other TNCO members to address hardships for providers/people served and discuss solutions

Recommend updates (as a group) to referral sources when needed

Provide training and access to key people within disability employment network to assist providers in further developing services and opportunities for individuals

Meeting Schedule

The TNCO Employment Committee meets quarterly via Zoom meetings. They are typically scheduled for Tuesday mornings for one hour. Topics are driven from past meetings or current issues related to disability employment.

Executive Team meets monthly (in person if possible) to prepare for future full committee meetings and conference presentations.

Purpose/Objective:

The TNCO Employment Committee is dedicated to supporting member organizations in developing, expanding, and refining employment services for individuals with disabilities. We provide resources, training, and peer collaboration to help members succeed in creating inclusive job opportunities.

Partnering Referral Agencies and Services

- Vocational Rehabilitation
- ECF Choices/Choices
- MAPS
- DDA
